

# WER 2018 International Open

## Team Show

### 1. Theme

#### **Information Era has cast an influence on people' s life.**

Entering 21st century, people are encountering a brand-new time - information era, indicating all walks, ranging from politics and finance to education and community, are covered by information technology. Development of information technology enables us to better understand the society, display our distinctive characters and widely interact with others. It has satisfied people' s recreational requirements to a large extent; meanwhile, development of information technology has expanded our socializing circle, altered stereotyped interactive skills, and enriched our life experience. We now can cross the border of majors to seek resources and guides at any time as long as we have initiatives.

### 2. Rule

In progress of team event, each team expresses their view of the theme by means of poster, speech, drama and performance; meanwhile, they are supposed to demonstrate outstanding demeanor.

### **3. Time and venue**

After registration, each team enters debugging area and arranges display zone. If the team gets ready, they will give the judge a signal for being scored.

### **4. Ranking and award**

Team will be awarded individually according to the category in team event. The score will not be counted in brick series contest.
